

# It's Time to Live!

**"There is a place that you are to fill and no one else can fill, something you are to do, which no one else can do."**

**- Florence Scovel Shinn**

It's time! Yes, right now is the time to unleash the power within you! Not tomorrow when you've got more time, or next week when you have more energy, or next month when you've lost a few kilos, or next year because that's when your schedule will free up – no! The time right now to fill in the place that no one else can fill is NOW!

So many people get confused when we talk about purpose or destiny, and worry about what that entails! They think it is some grand plan that will only reveal itself by a winged messenger on a fluffy cloud, yet that is so far from the truth.

**Your life's purpose is very simple. All you need to do is live with purpose and on purpose.**

Learn to love all that you do, no matter how trivial it may seem. I'd like to think you could embrace your passions immediately without making so many excuses. Really, the time of procrastination is over and out, dead and buried, long gone! Procrastination is a really boring story that everyone hates to hear. And I'd like to warn you right now that if you continue to postpone your soul's calling, then you will continue to feel out of whack, depressed, stressed, alone and powerless.

Today, however, is the day (without another excuse – no, don't you dare!) that is to become your miracle day

where you decide 'it's time to live'! And when you take ownership of all the living you are doing, you will be feeling so amazing, you will quickly forget all the 'barely existing' you were repeating in the past.

The reason that I am coming across so forcefully about 'filling the place that you are meant to fill' is that the energy on the planet is speeding up and there are people completing their missions on Earth in great mass. Countless people have stepped into the 'it's time to live zone' and are making bold statements in accepting their passion and zest for life. It's your time now too!

Please use the following

miracle prayer over the next seven days, every morning and night – this will ignite your calling.

This prayer is an excerpt from Maria Elita's e-book, *The Miracle Year...52 Weeks of Unlimited Miracles and Life Empowering Tools*.

## My Calling – Miracle Prayer

Focus on opening your Crown Chakra when you say this:

*God/Goddess Divine, Creator of All, I ask for my Calling.*

*May I ask, although I shall never want, as I know that I am always provided for; that may this time bring forth much clarity to my Calling to serve you, Eternal Spirit.*

*May I ask, although I shall never want, as I know I am always provided for; that my authentic love that I have for You - The Miracle of One - be expressed with ease and profound insight, as I display this for the entire World to witness, experience and prosper from.*

*May I ask, although I shall never want, as I know I am always provided for; that my Love magnificently radiates with an unlimited, timeless and boundless ray of Truth; may it mirror to all an abundant flow of Soular wealth and innate wisdom.*

*I thank You, Creator of All, in my most humble hour, for the years of learning humility, vulnerability and true Surrender. Only through this knowing was I able to accept the Truth of my Calling that is now shown to me.*

*May my Calling always remind me:*

*I am the Miracle, You are the Miracle  
and We are the Miracle of One.*

# Rainbow Angels

## GUARDIANS FOR THE NEW WORLD

It is easy to learn to connect with your angels particularly since you have been talking to them since the day you were born. Each of us has a large group of angels that help us live openly and lovingly. If we choose to ignore them or choose to make mistakes and thereby learn our lessons for ourselves, all they can do is step back and allow us to do so.

In the many readings I do for others, I am often amazed at the array of colours I see around people and their angels. The angels come in many different shades and depths of colour and I have noticed more and more young people who have Rainbow Angels with them. Rainbow Angels have a combination of all the colours imaginable floating around them and their clothing is also multicoloured. I was curious about this so I asked the angels why they had so many colours when others seemed to be limited

to one or two shades. The Rainbow Angels told me they are multicoloured because they can access any energy they need to help their charges explore the world around them.

People who walk with Rainbow Angels have very little fear and are extremely capable and versatile. They are here to invent new things explore new ways and experience in a new way. They will introduce the world to new technologies. They have a fresh perception of the world around them and will create a very different world to live in over the next 300 years. Because of this they need to have access to any energy they like so that they can choose any path they want. Rainbow people are here to discover how far they can go, to break all the old boundaries down and co-create a new world for future souls to explore their mind consciousness through.
